REDNOCO Report for the North of August 1962  1. My visit to the KURARK effice in was pleasant and I hope productive. There are a number of things that can be done in Alaska which may be of some assistance to the It so happens that some of my centests at the University of Alaska may be useful in supplying scie information of value to the intelligence community.  2 visited here during this month. I discussed with him the problems of the and the question of continued representation He indicated he would discuss with you upon his return.  3. ALCOM has been notified of the change from programmed assets to massets. Both JGS and ALCOM still depend on KUBARK to develop assets to satisfy UW requirements in this theater. I shall preper a separate memo this subject.  4. My research project on the development of native type assets is progressing. I want to talk to one or two others before completing the report. Resically however, there is little question that suitable materia.	Chief. SE			MARKED FOR INDEXING
